Hello to all NMLRA members. I'm a small business owner in Maine and have been an active NMLRA Director since 1998. I've worked on several projects including helping update the powder magazines with the BATFE and the correct procedures to sell powder. I'm a certified National Instructor and have taught Range Officer classes at the National Shoots and in the field at home. I often run the Bench Line during the National Shoots and have helped Range Officer class graduates learn how to run the Bench Line. I volunteer to sell black powder the first Saturday of the shoots and have worked the walk-in Field Rep tent. Like all the Directors I have sold memberships over the years. We all have to work on new memberships and retaining past members. My goals for the coming years are to train more Range Officers and work on increasing our National membership numbers.

I've served for the last six years and heard and solved some of the problems of the association. I've been asked to serve and I'm asking you to vote for me to be your director for another three years. I've enjoyed serving on the board, working the main gate, greeting members and selling memberships. Many of you have seen me at the Powder Magazine helping to sell powder to our members. I've visited Charter Clubs around the state making new friends and promoting our association.

In the 80's I introduced muzzleloading in the Kentucky 4-H Shooting Sports program. My grandchildren will soon be members of the Kentucky 4-H and NMLRA. Our youth participation will allow us to have another 78 years allowing the association to thrive and prosper.

Thank you for allowing me to serve as director and for your participation in the association.

Fontaine "Bud" Rodman

Why would a man ask for more work? I would like to continue to serve on the board and am asking for your vote because I believe that with a few improvements we can begin a regrowth of our membership.

It's my feeling that education of our youth is a sure path to success. For instance, the Gunmaker's Hall is a star in the crown of the association. I have spent many hours as a monitor there and have seen young men and boys catch the "Bug." We have completed the education building and it's begging to be used. With year round classes we could offer college credit and bring in many new members. It will take work. I believe that a motivated membership can and will pitch in with skills and labor.

Thank you for your consideration. Please make your choice known for the future of the NMLRA. VOTE

I would like to continue as a director of NMLRA for another three years. I am a life member, Cert. Range Officer for 16 years now, and the Head Range Officer for the Bench Range at the WNS.

For several years I have arrived early at the national matches to help in any last minute set up required. I have also been coming in the Spring for the work day to get the range ready for the year.

I'm a firm backer of the Territorial program, participating in 4 to 5 matches annually.

Utilizing my background as a Structural Designer and Construction Coordinator, I am presently overseeing the electrical upgrade in 6 Acres Campground. The campground upgrade is making progress and we expect the first area to be under way this spring.

I would appreciate your continued support by voting for me.

 (859) 630-6744

My name is Jim Schafer. I have been a NMLRA member since 1997. I am a Region 4 Coordinator along with being a National Range Officer. I belong to the Kentucky Corps of Longriflemen and I shoot at various clubs in Kentucky, Ohio, and Indiana. In past years I have volunteered for the National Youth Shoot, as well as a volunteer for work details, and many other activities that have benefited our association. I would like to become more involved and help the association to grow and move forward. If I am voted into the Board of Directors I will be a voice for the people. Thank you for your vote.

Any questions, feel free to contact me (859) 633-6744.

I've been active as your director during my current term of office with the design, planning and construction of our newly completed Education Building, as a match director for the Long

Range Muzzle Loading and BPCS matches held at Camp Atterbury and at Friendship and in promoting and working on our Youth Range and Beginners Bench. I'm currently working on a new Youth Education Training Program to teach our younger people safe and responsible muzzleloading practices and I am exploring ideas to expand the use of the facility and ranges at Friendship to help bring in additional revenue to help us to cover our day to day operational expenses.

You, as a member, can help out our organization. This year help sign up a new member. Share your enthusiasm and give them a hand at getting started. The N.M.L.R.A. will gain a membership and you will gain a friend.

 bobvoegele@gmail.com

My family and I reside in Batesville, Indiana. I'm a national range officer and a life member of the NMLRA, NSSA, and NRA. I hold a BS degree from Purdue University. I currently operate a family owned business in Batesville and own a NAPA auto parts in Brookville, IN.

Six years ago you gave me the opportunity to serve you by electing me

to the board of directors. I've served as your second Vice President for two years and am now serving my fourth year as your President.

Membership and participation has to be at the forefront as we move forward. We have to ensure that our membership receive benefits second to none and offer muzzleloading opportunities to attract and retain members. I'll use my education, business experience, and industry and government contacts to ensure that the future is bright for everyone. I would truly appreciate your vote.

Thank you.

Hello, my name is Bob Wetzler. Some of you might remember me as the Maintenance Supervisor for the Association. I'm a member of the NRA and have been a member of the National Muzzle Loading Rifle Association since 2001. I'm a long range shooter and I'm also a member of the 1 of 1000.

Some of the things I encountered as the Maintenance person, I believe would help me as a board member. I don't promise that I'll change anything be-

I ask you the membership of the NMLRA to give me the opportunity to continue to serve you as a member of the Board of Directors. I have enjoyed my years in this position and as president attempting to make this a better association for all members. We as board members need to remember this is a broad and diverse organization and must keep the interests of the entire membership on our minds during the decision making process. These are trying times economically and politically for our country and the NMLRA and I promise you I will do my best to see that our organization weathers them well.
