RULES

It is the competitor's responsibility to be familiar with and understand the first five sections of the NMLRA Range Rules and Regulations book before entering into competition.

The following rules are printed here for your particular attention.

1. Only blackpowder or BATF approved blackpowder substitute permitted.
2. Ignition is by percussion cap that fits on nipple, or by flint stone striking frizzen. (Exceptions: Wheellocks with original-type ignition, and primers in slug guns.)
3. **No intoxicants are to be used on firing line.**
4. **No smoking or vaping on firing line. Keep powder containers closed.**
5. **No loaded guns may be taken from the firing line.**
6. Rifle and Primitive match targets may be claimed immediately following the awards ceremony; claim your target from the Scoring Room.
7. Safety shields must be used on all flintlock bench rifles and cross-stick rifles.
8. No guns are to be fired on the covered firing line after the close of each day's matches.
9. No firing of cannons on the range.
10. For safety's sake—shooting glasses and hearing protection are recommended.
11. Police your shooting area after you have completed your match.
12. Slug gun bench targets fired only on the Slug Gun Range.
13. Protest and challenge period will end the last Sunday at 8:00 A.M. *Protests and challenges will not be allowed after the conclusion of the official score protest and challenge period.*
14. See page #5 on how to challenge a score.
15. All offhand matches, except musket and Schuetzen, are to be fired on the Offhand Range.
16. Schuetzen matches (10 shots) may be fired in two consecutive relays in the same day. Schuetzen matches may be fired with roundball or bullet and are to be fired on the west end of the Bench Range.
17. All false muzzles will be attached to the loading bench by a cord or similar device, so that the gun may not be placed in a firing position without removal of the false muzzle.
18. Specific, posted individual range rules take precedence over NMLRA Official Rules.
19. Off-the-shelf guns, chunk guns, muskets, squirrel rifles, one gun, smoothbores, and buffalo guns must be inspected by the range officer for sights and authenticity and must receive a sticker.
20. Check the bulletin boards for announcements and program changes.

National Rifle Matches are not squadded—all matches are timed relays. This gives competitors the opportunity to shoot their chosen matches during any day of the national competition. Last day for all reentry, aggregate, and match competition is the last Saturday.

Bench Range: 50, 100, and 200 yd. ranges—45 minute relays; Offhand Range: 25, 50, and 100 yd. ranges—30 minute relays. Slug Range: 100, 200, and 300 yd. ranges—45 minute relays. Chunk gun and Silhouette Ranges—45 minute relays. Pistol 25 and 50 yards—30 minute relays.

FIRING LINE RIFLE PROCEDURE

Target Desk 7:00 a.m. - 5:00 p.m. first weekend; 8:00 a.m. - 3:00 p.m. rest of week.
Registration Desk 7:00 a.m. - 5:00 p.m. first weekend; Monday - Friday 8:00 a.m. - 3:00 p.m.; Last Saturday 8 a.m. to Noon.
Ranges open at 7:30 a.m. and shooting begins at 8:00 a.m. (weather and lighting permitting).

- All competitors must register at the Registration Desk in the Clubhouse.** Registration fees are \$75.00, and Juniors register for \$1.00 (Juniors are competitors who have not had their nineteenth birthday; **Juniors must be sponsored by an adult member.**) After registration, pistol shooters report to the Pistol Shack for matches, and trap shooters report to the Trap House. Quail Walk, Skeet, and Sporting Clays competitors report to their respective ranges, north up Caesar Creek. Primitive, tomahawk and knife, and primitive bow competitors all report to the Primitive Range, south along Laughery Creek. Woodswalk & Knife & Hawk Walk competitors report to the Ranges behind the Rand House. Running Boar competitors report to range located by the Youth Range.
- Select the matches you wish to shoot from this program.
 - If you are shooting single matches (not aggregates), purchase at the appropriate Target Desk those targets listed for the particular match identified as "Individual Matches" and "Reentry Matches."
 - If you are purchasing aggregate matches, select your aggregate at the Aggregate Desk. (See item 4., below.)
 - SHOOTERS ARE RESPONSIBLE FOR PURCHASING THE CORRECT TARGETS FOR THEIR MATCHES.**
 - Identification marks on targets are as follows: red dot—50 yards offhand; OS represents open sights.
 - Practice targets are \$2.00 and are for use only if there is sufficient space on the firing line.
- When requesting targets at the Target Desk, tell your attendant the match number(s) you wish to shoot. Be correct in giving your registration number; always wear your registration badge so that your number can be double-checked. When sending others to purchase targets for you, send your registration number on a slip of paper with the purchaser; do not depend on memory. A match may be fired only once (exceptions: reentry matches).
- Aggregates must be entered before purchasing or firing any individual matches in the aggregate. Should you fire an individual match that is included in an aggregate, you can no longer purchase that aggregate. If you shoot an individual match that is included in an aggregate that you have already entered, you have automatically disqualified both of your scores. To prevent this, purchase the complete aggregate package. Take time to check those matches included in the aggregate against your program. In this way you will not repeat matches, resulting in disqualification.**
- You may shoot any match in any relay (see certain exceptions in the Primitive Matches section).
 - While a relay is in process, take the target you want to shoot to the range station. Give the range worker the target; the worker will then assign you a position on the line and will mark your target for that position. At the order of the range officer, you will hang your own target. Be sure to verify that your target is on the correct position and yardage before the relay starts.
 - Flint shields on the firing lines are provided for the protection of all shooters. Please leave shielded positions open for flint shooters.
 - Get your bench and/or other gear to your shooting position and loading table in preparation to shoot in the next relay. Do not load your gun before the relay begins.
 - In bench matches, please remove your bench from the firing line when you do not plan to shoot the next relay.
- Your score will be posted under the match number and by your registration number on a position sheet inside the Clubhouse. *Always* check to make sure your score is posted correctly. If an error has been made, go to the Target Desk *immediately*. Shooters who leave the range before their score is posted, should have someone check their score.
- If you have any questions, do not hesitate to ask the range officers, directors, or association officers. No question is too small to be answered. A small question may determine disqualifications, good scores, or someone's safety.
- Good luck, good scores, and have a good time.

Note: *You are encouraged to check the scoreboard frequently throughout the week and report errors immediately. To report posting errors or question a score, please fill out a report slip available at the Target Desk and leave it with the target sales staff. If you still disagree with the decision of the scoring room director, then a challenge is necessary.*
